**Green Technologies for Environmental Sustainability**

Following last year's AASEC's theme "Integrating Innovations in Science and Engineering among Young Researchers", the 5th AASEC brings up "Green Technologies for Environmental Sustainability" as the main topic of discussion. The main purposes of the conference are: (1) to bring together scientists, engineers, researchers and practitioners, students, and civil society organization representatives in the scientific forum, and (2) to share and to discuss theoretical and practical knowledge about innovation in applied science and engineering.

**Call for Papers**

To submit an abstract, authors must create an account first. Then they can submit their abstracts by logging in to their account. The manuscript (full paper) can be submitted only after authors submit their abstract. The whole submission process is done fully online (NOT by email) to guarantee smooth administration. Letter of Acceptance (LoA) and Letter of Invitation (LoI) can be downloaded directly from your account once your abstract is accepted to be presented at the conference.
