PLOS ONE Decision: Revision required [PONE-D-22-19419R2] - [EMID:80386995ed70b88b] 2 Yahoo Mail/Inbox ☆

PLOS ONE <em@editorialmanager.com>
To: Sri Masnyeni

PONE-D-22-19419R2
Dengue seroprevalence study in Bali
PLOS ONE

Dear Dr. Masnyeni,

Thank you for submitting your manuscript to PLOS ONE. After careful consideration, we feel that it has merit but does not fully meet PLOS ONE's publication criteria as it currently stands. Therefore, we invite you to submit a revised version of the manuscript that addresses the points raised during the review process.

Please submit your revised manuscript by May 28 2023 11:59PM. If you will need more time than this to complete your revisions, please reply to this message or contact the journal office at plosone@plos.org. When you're ready to submit your revision, log on to <https://www.editorialmanager.com/pone/> and select the 'Submissions Needing Revision' folder to locate your manuscript file.

Please include the following items when submitting your revised manuscript:

- A rebuttal letter that responds to each point raised by the academic editor and reviewer(s). You should upload this letter as a separate file labeled 'Response to Reviewers'.
- A marked-up copy of your manuscript that highlights changes made to the original version. You should upload this as a separate file labeled 'Revised Manuscript with Track Changes'.
- An unmarked version of your revised paper without tracked changes. You should upload this as a separate file labeled 'Manuscript'.

If you would like to make changes to your financial disclosure, please include your updated statement in your cover letter. Guidelines for resubmitting your figure files are available below the reviewer comments at the end of this letter.

If applicable, we recommend that you deposit your laboratory protocols in protocols.io to enhance the reproducibility of your results. Protocols.io assigns your protocol its own identifier (DOI) so that it can be cited independently in the future. For instructions see <https://journals.plos.org/plosone/submission-guidelines#loc-laboratory-protocols>. Additionally, PLOS ONE offers an option for publishing peer-reviewed Lab Protocol articles, which describe protocols hosted on protocols.io. Read more information on sharing protocols at https://plos.org/protocols?utm_medium=editorial-email&utm_source=authorletters&utm_campaign=protocols.

We look forward to receiving your revised manuscript.

Kind regards,
Kovy Arteaga-Livias
Academic Editor

Dear Dr. Masyeni,

We're pleased to inform you that your manuscript has been judged scientifically suitable for publication and will be formally accepted for publication once it meets all outstanding technical requirements.

Within one week, you'll receive an e-mail detailing the required amendments. When these have been addressed, you'll receive a formal acceptance letter and your manuscript will be scheduled for publication.

An invoice for payment will follow shortly after the formal acceptance. To ensure an efficient process, please log into Editorial Manager at <http://www.editorialmanager.com/ponel>, click the 'Update My Information' link at the top of the page, and double check that your user information is up-to-date. If you have any billing related questions, please contact our Author Billing department directly at authorbilling@plos.org

If your institution or institutions have a press office, please notify them about your upcoming paper to help maximize its impact. If they'll be preparing press materials, please inform our press team as soon as possible -- no later than 48 hours after receiving the formal acceptance. Your manuscript will remain under strict press embargo until 2 pm Eastern Time on the date of publication. For more information, please contact onepress@plos.org

Kind regards,
Kovy Arteaga-Livias
Academic Editor

plosone <plosone@plos.org>
To: masyeniputu@yahoo.com

Dear Dr Masyeni,

Thank you for your recent message. We received your request to extend the resubmission date for your revised manuscript. It is perfectly fine to have an extension in order to complete your revisions. I have extended your due date to November 07, 2022.

Please do take the time to make the desired changes, and let us know if you will not be submitting within six months of your decision date.

Please feel free to contact us if you have any further questions or concerns.

Kind regards,
Liezl Callo
Straive Editorial Assistant

[CAUTION: External Email.]

Dear Dario Ummarino, PhD

I do an apology. We need more time around 2 weeks to revise the manuscript.
Thank you

Best regards
Sri Masyeni
