Dear Prof. I Nengah Sinarta,

Manuscript ID 20470 entitled "Analysis of debris flow hazard in volcanic soil by The Flood Flows Modelling (DFLOWZ) and The Design Flood Nakayasu" which you submitted to our Journal "International Review of Civil Engineering (IRECE)" has been reviewed. The comments of the reviewer(s) are included at the bottom of this email.

The reviewer(s) have recommended a MAJOR REVISION.

This is an opportunity for you to respond to their major concerns and to incorporate improvements in the paper according to their suggestions. It is also an opportunity for you to add new results.

We normally only permit one major revision before an accept or reject decision is made. So please take the concerns of the reviewers seriously.

Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript within two weeks from the date of this email.

You should revise your manuscript using a word processing program and save it on your computer. Please also highlight the changes to your manuscript within the document by using the colored text in red.

Once the revised manuscript is prepared, you can upload it and submit it through your on-line submission system.

In order to expedite the processing of the revised manuscript, please be as specific as possible in your response to the reviewer(s).

If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission.

Once again, thank you for submitting your manuscript to our Journal and I look forward to receiving your revision.

Sincerely,

Dr. K. M. Liew, Editor-in-Chief of International Review of Civil Engineering (IRECE)

Reviewer A:

Do you think the content of this paper is appropriate for this journal?:
Yes

Originality::
3. Satisfactory

Contribution::
3. Satisfactory

References::
4. Unsatisfactory

Presentation style::
4. Unsatisfactory

Quality of language::
4. Unsatisfactory

Final result::
Accepted if improved

Suggestion for improving the paper::
- Figures quality should be improved.
- At the end of the Introduction add a paragraph on how the rest of the paper is organized and developed, typically a summary on the rest.
- English grammar and style should be carefully revised. Some typos are still present in the text (i.e. the title of subparagraph II.1).
- The English language should be adopted also for the references, even if the original documents are in other languages.
- The acronyms should be listed in the Nomenclature, too.
- Some more references in the range 2019-to date should be proposed by the authors. The review section should be therefore expanded based on the proposed references list.
- You should add to the conclusions something about future evolution and enhancements of your approach.

Reviewer B:

Do you think the content of this paper is appropriate for this journal?:
Yes

Originality::
3. Satisfactory

Contribution::
3. Satisfactory

References::
4. Unsatisfactory

Presentation style::
4. Unsatisfactory

Quality of language::
4. Unsatisfactory

Final result::
Accepted if improved

Suggestion for improving the paper::
- Please note that color graphs could lose information in the paper printed in grey-scale, so the authors should use different markers or thickness or style for curves or labeled arrows or different background for bars in bar chart in order to preserve the significance of that colors.
- Insert your equations edited in Mathtype or Equation Editor.
- References list should be expanded and updated with relevant recent papers.
- Please revise the manuscript for English grammar and style.

For any questions don't hesitate to contact us.
Best regards,
Editorial Staff

Dear dr. Mr I Nengah Sinarta:

It is my great pleasure to inform you that your paper ID 20470 "Analysis of Debris Flow Hazard in Volcanic Soil by the Flood Flows Modelling (DFLOWZ) and Nakayasu Synthetic Unit Hydrograph" has been accepted and will be published on the International Review of Civil Engineering (IRECE) after English revision by PWP Staff.

If you want to publish the paper on the current issue of the Journal, please, accomplish the following requirements as soon as possible:

1. You should order and pay for the Article Publication Fee (you should buy the e-journal or the hard copy containing your paper) by entering into your restricted area with your username and password at: <http://www.praiseworthyprize.org/jsm/index.php?journal=irece&page=login>, going to the Summary section of your accepted paper and clicking on the "PAY NOW" link.

(Please, select the English Editing Service in the order form).

2. You should download, fill in, sign and return, by e-mail to info@praiseworthyprize.it the following documents:

2.1 COPYRIGHT FORM at:

<http://www.praiseworthyprize.org/public/documents/copyright%20Praise%20new.pdf>

2.2 TREATMENT OF PERSONAL DATA at:

http://www.praiseworthyprize.org/public/documents/Treatment%20of%20Personal%20data%20_2_.pdf

2.3 eventually the PERMISSION REQUEST FORM at:

<http://www.praiseworthyprize.org/public/documents/COPYRIGHT%20PERMISSION%20PRAISE.pdf>

for the reproduction of any figure, table or extensive (more than fifty words) extract from the text of a source that is copyrighted or owned by a party other than Praise Worthy Prize or of the Author.

Sincerely,

Dr. K. M. Liew, Editor-in-Chief of International Review of Civil Engineering (IRECE)
